

# Analysis of existing regulations and certification processes

*B. Pauly (TR6), T. Longhurst (CAAi), A. Iwaniuk (IoA), M. Idzikowski (IoA), B. Dziugiel (IoA)*

This report provides an analysis of existing European certification and rulemaking processes for aircraft systems, flight operations, continued airworthiness, air traffic services and airports. The shortcomings and bottlenecks in the existing processes have been identified and evaluated.
